

Health and Wellness Professionals

Laurel Pendle Business Consulting Services is a purpose-driven consulting agency with a holistic approach. We look at the big picture. We consider ourselves a “holistic business”. What does this mean? Think of a functional medicine doctor that looks the symptoms or “problems” in the organization, understands the “root cause(s) by connecting the dots, and then works to provide a solution for positive change. We troubleshoot the business both internally and externally...essentially bringing balance back into the body or business in this case. ❤️

Often business leaders, owners and executives are too close to the organization and team to see the big picture and possible root cause(s) that exist below the surface. We look at the organization and leadership as a whole to uncover the fundamental reasons of what is blocking the flow of business success. We create strategy and solutions that target these roadblocks to increase impact and drive lasting results.

Does this sound familiar?

- Struggling with attracting new customers?
- Feeling overwhelmed?
- Dreaming about increasing your revenue?
- Desire more time and freedom to do the things you want to do?
